EXPERIENCE

- Frontend Engineer (Contract) | Last-Mile Logistics Startup (Confidential), Nigeria**

Nov 2025 - Present

 - Building 4 production surfaces for a last-mile bike delivery platform ahead of launch: React Native customer app, React Native rider app, Next.js admin dashboard, and a public web booking interface.
 - Customer and rider apps: authentication, real-time order flow, Mapbox routing and live tracking, Firebase push notifications.
 - Admin dashboard lets dispatchers manage live deliveries end-to-end.
 - Stack: React Native, Expo, Next.js, TypeScript, Supabase, Mapbox, Firebase.
- Full-Stack Engineer (Contract) | StudyOversee, Lagos, Nigeria**

Apr 2026 - Present

 - Building the production website for a Nigerian education consultancy placing students at 200+ partner universities across the UK, USA, Canada, and Europe.
 - Designed a phased build with security audits between stages: XSS and form-abuse testing, dependency scans, and CSP verification before launch.
 - Delivered a scope document and CMS training so the owner self-manages content.
 - Stack: Next.js, TypeScript, Tailwind CSS, shadcn/ui, Sanity CMS, Formspree, Vercel.
- Full-Stack Developer Intern | HNG Internship 12, Frontend and Backend Tracks**

Feb 2025 - Jul 2025

 - Built a Chrome extension AI language translator and summarizer using the on-device Summarizer API.
 - Shipped a FastAPI application with GitHub Actions CI/CD, deployed to Render.
 - Built REST APIs with Node.js, Express, and MongoDB serving JWT-authenticated routes.
- Frontend Developer | SAIL Innovation Lab, Lagos, Nigeria**

Feb 2023 - Oct 2023

 - Co-built Kidshive, an educational platform in active use teaching programming to learners aged 7 to 13.
 - Built the React and Tailwind CSS UI; integrated MERN-stack authentication.

PROJECTS

- fastapi-portfolio:** Live production REST API: JWT auth with refresh token rotation and reuse detection, rate-limited login, object-level authorization. 42 tests at 95% coverage enforced in CI. Deployed on Render. github.com/eniolatalabi/fastapi-portfolio
- sentiment-radar:** End-to-end NLP pipeline: 890 Trustpilot reviews scraped with Selenium, negation-aware TF-IDF with logistic regression selected by cross-validation (84.8% CV, 86% holdout), confidence-banded Streamlit dashboard. github.com/eniolatalabi/sentiment-radar
- diabetes-predictor:** Co-built diabetes risk screener on the Pima dataset: leakage-safe imputation pipeline, cross-validation model selection (ROC-AUC 0.837, 76% holdout), version-guarded artifacts, Streamlit dashboard. github.com/eniolatalabi/diabetes-predictor
